Cortex™ XSOAR: SOC Analyst Training

The Cortex™ XSOAR: Security Operations Center (SOC) Analyst training course is a compilation of content, demonstrations, and knowledge-checks for helping you:

- Use Cortex XSOAR to open, assign, prioritize, investigate, collaborate, track, and close incidents
- Take command of the Cortex XSOAR UI to streamline your workflow, build context, facilitate playbook execution, get help and provide help, document evidence, manage indicators, and customize the presentation of information to meet your needs
- Participate in your organization’s continuous improvement of processes and tools by sharing an understanding of Cortex XSOAR core concepts

**Course Modules**

1. Cortex XSOAR Global Concepts
2. Incident Investigation
3. Incident Management
4. Analysis and Collaboration
5. Related Incidents and the Canvass
6. Work Plan and Playbooks
7. Indicators
8. Dashboards and Reports

**Scope**

- **Level:** Intermediate
- **Duration:** 3 hours 30 minutes
- **Format:** Self-paced digital learning
- **Platform support:** Cortex XSOAR server 5.5

**Objectives**

This training introduces you to the Cortex XSOAR platform and user roles, as well as the value that Cortex XSOAR brings to security operations. Cortex XSOAR is a comprehensive security orchestration, automation, and incident-response platform. The Cortex XSOAR platform combines incident case management, automated enrichment, threat intel management, automated and analyst-involved task execution, and analyst collaboration.

**Target Audience**

Security analysts, security-operations and security orchestration, automation, and response (SOAR) engineers, managed security service providers (MSSPs), service delivery partners, and system integrators

**Prerequisites**

There are no prerequisites, but knowledge of security operations, incident response, typical security-analyst workflows, and associated terminology would be helpful.

**Palo Alto Networks Education**

The technical curriculum developed and authorized by Palo Alto Networks and delivered by Palo Alto Networks Authorized Training Partners helps provide the knowledge and expertise that prepare you to protect our digital way of life. Our trusted certifications validate your knowledge of the Palo Alto Networks product portfolio and your ability to help prevent successful cyberattacks and safely enable applications.
