Overview

The Palo Alto Networks® Panorama 8.1: Managing Firewalls at Scale (EDU-120) e-Learning course will enable you to:

- Learn how to configure and manage the next-generation Panorama™ management server
- Gain knowledge by configuring templates (including template variables) and device groups
- Gain knowledge about administration, log collection, and logging and reporting
- Gain knowledge about Panorama™ High Availability and Panorama™ troubleshooting
- Become familiar with new Panorama™ features such as Panorama™ in the public cloud, the Logging Service, and GlobalProtect cloud service

Module 1: Panorama Overview

Module 2: Initial Configuration

Module 3: Adding Firewalls to Panorama

Module 4: Panorama High Availability

Module 5: Templates

Module 6: Device Groups

Module 7: Administrative Accounts

Module 8: Log Forwarding and Collection

Module 9: Aggregated Monitoring and Reporting

Module 10: Troubleshooting

Course Objectives

Successful completion of this e-Learning course will enable the student to gain in-depth knowledge about how to configure and manage their Palo Alto Networks® Panorama® management server. Upon completion of this course, administrators should be familiar with the Panorama™ management server’s role in managing and securing their overall network. Network professionals will be shown how to use Panorama™ aggregated reporting to provide them with a holistic view of a network of Palo Alto Networks® next-generation firewalls.

Scope

- Course level: Intermediate
- Course duration: About 4.75 hours
- Course format: Narrated courseware with knowledge check questions

Target Audience

Prerequisites

Students must complete either the e-Learning (EDU-110) or instructor-led training (EDU-210) version of the Firewall 8.1 Essentials: Configuration and Management course, understand Palo Alto next-generation firewall management, and understand basic networking concepts, including routing and IP addressing.

This e-Learning course is available at the Learning Center.

Palo Alto Networks Education

Training from Palo Alto Networks® and a Palo Alto Networks® Authorized Training Center delivers the knowledge and expertise to prepare you to protect our way of life in the digital age. Our trusted security certifications validate your knowledge of the Palo Alto Networks® Security Operating Platform and your ability to help prevent successful cyberattacks and safely enable applications.
