Overview

Evident: Securing the Cloud is a self-paced e-Learning course with about 1.5 hours of narrated modules, demonstrations, and knowledge check questions. It describes the Evident SaaS platform that detects cloud security risk. Upon completion of this course, the learner should know how Evident is used to identify, manage, and remediate risk.

Evident: Securing the Cloud self-paced e-Learning will help the learner to:

- Describe the core features of the Evident platform
- Explain how User Attribution and Custom Signatures are used
- Explain how integrations can be used to build auto-remediation pipelines
- Differentiate between Compliance and Custom Reports
- Locate Evident resources for using REST APIs and installing SDKs

Course Objectives

This course is designed to give you an in-depth overview of Evident core features and important concepts for administrative setup. This course will describe how to navigate through the Evident dashboard to view detailed reports for every risk, modify User Attribution and Custom Signatures to align with your specific security policies, add integrations and enable auto-remediation to keep you updated on security issues or vulnerabilities, view compliance reports, and create a custom report.

Scope

- Course level: Introductory
- Course duration: About 1.5 hours
- Course format: Narrated courseware, demonstrations, and knowledge check questions

Target Audience

Prerequisites

There are no prerequisites, but learners should have basic familiarity with cloud infrastructure and security concepts.

This e-Learning course is available at the Learning Center.

Palo Alto Networks Education

Training from Palo Alto Networks® and Palo Alto Networks® Authorized Training Centers delivers knowledge and expertise that prepare you to protect our digital way of life. Our trusted security certifications validate your knowledge of the Palo Alto Networks® Security Operating Platform and your ability to help prevent successful cyberattacks and safely enable applications.
