CORTEX DATA LAKE (EDU-168)

Cortex Data Lake is a self-paced digital learning with about 40 minutes of narrated courseware, demonstrations, and knowledge check questions. It describes and demonstrates how to configure and use Cortex Data Lake to help you scale your storage needs as your organization grows.

Course Topics
1 - Essential Features of Cortex Data Lake
2 - License Activation
3 - Log Forwarding Configurations
4 - Solution Sizing
5 - The Log Forwarding App
6 - Troubleshooting: Use Case Examples and Commands for Panorama and Palo Alto Networks Firewalls

Scope
• **Level:** Introductory
• **Duration:** About 40 minutes
• **Format:** Self-paced digital learning with demonstrations and knowledge checks

Objectives
Successful completion of this digital learning course will help students to activate, configure, and use Cortex Data Lake to scale storage needs as their organization grows. Students will be shown how to configure firewalls to forward logs to Cortex Data Lake and configure Panorama to access Cortex Data Lake. The course also will describe log forwarding and troubleshooting.

Target Audience
Security Operations Center Personnel, System Administrators, SaaS Application Administrators, and Technical Support Engineers

Prerequisites
There are no prerequisites, but knowledge of TCP/IP networking and Palo Alto Networks firewalls will be helpful.

This digital learning course is available at the Learning Center.

Palo Alto Networks Education
The technical curriculum developed and authorized by Palo Alto Networks and delivered by Palo Alto Networks Authorized Training Partners helps provide the knowledge and expertise that prepare you to protect our digital way of life. Our trusted certifications validate your knowledge of the Palo Alto Networks Security Operating Platform and your ability to help prevent successful cyberattacks and safely enable applications.
