PANORAMA 9.0: MANAGING FIREWALLS AT SCALE (EDU-120)

The Palo Alto Networks Panorama 9.0: Managing Firewalls at Scale (EDU-120) digital-learning course provides information that will help you:

- Learn how to configure and manage the next-generation Panorama™ management server
- Gain knowledge about configuring templates, template variables, and device groups
- Gain knowledge about administration, log collection, and logging and reporting
- Gain knowledge about Panorama high availability and Panorama troubleshooting
- Become familiar with planning and design considerations for Panorama deployment

Course Modules
1 - Initial Configuration
2 - Adding Firewalls
3 - Templates
4 - Device Groups
5 - Administrative Accounts
6 - Log Collection and Forwarding
7 - Aggregated Monitoring and Reporting
8 - Panorama Design: A Case Study
9 - Troubleshooting

Scope
- Level: Intermediate
- Duration: 5 hours, 52 minutes
- Format: Narrated, animated, and interactive training with demonstrations and knowledge check questions

Objectives
Successful completion of this digital-learning training will help the participant to gain in-depth knowledge about how to configure and manage their Palo Alto Networks Panorama management server. Upon completion of this course, participants should be familiar with the Panorama™ management server’s role in managing and securing the network. Participants will be shown how to use Panorama™ aggregated reporting to provide them with a holistic view of a network that uses Palo Alto Networks next-generation firewalls.

Target Audience

Prerequisites
Participants must complete either the digital learning (EDU-110) or instructor-led training (EDU-210) version of the Firewall 9.0 Essentials: Configuration and Management course and understand the basic maintenance, management, and monitoring requirements for individual Palo Alto Networks next-generation firewalls deployed in typical network-architecture, routing, and IP-addressing scenarios.

Palo Alto Networks Education
The technical curriculum developed and authorized by Palo Alto Networks and delivered by Palo Alto Networks Authorized Training Partners helps provide the knowledge and expertise that prepare you to protect our digital way of life. Our trusted certifications validate your knowledge of the Palo Alto Networks Security Operating Platform and your ability to help prevent successful cyberattacks and safely enable applications.

This digital learning course is available at the Learning Center.
